

2.6 Dividing Decimals Assignment

Name _____ Period _____

Rewrite the problem so that the divisor is a whole number.

1. $4.2 \overline{)23.1}$

2. $0.15 \overline{)12.87}$

3. $0.535 \overline{)8.76}$

Divide.

4. $7 \overline{)1.4}$

5. $5 \overline{)2.65}$

6. $0.5 \overline{)13.5}$

7. $2.5 \overline{)45.5}$

8. Describe and correct the error in finding the quotient.

X	2.7
	$5 \overline{)1.35}$
	$\underline{-10}$
	35
	$\underline{-35}$
	$\overline{0}$

9. You and three of your friends go parasailing for \$128.40. You split the cost evenly. How much does each person pay?

Evaluate the expression.

10. $20.6 + 19.4 \div 2$
