

# 5.4 Graphing Ratios

Name \_\_\_\_\_ Period \_\_\_\_\_

For every 2 hours worked you make \$15.  
Graph this ratio.

Hours	Dollars

**1**

For every six minor league baseball games there are roughly 20,000 people in attendance.  
Graph this ratio.

Games	People

**2**

Using the graph, complete the table.

Lollipops				
Candy Bars				

**3**

Using the graph, complete the table.

Games	People

**4**

Which ratio could be graphed on the same line as shown in the graph.

**5**

- $\frac{20}{10}$
- $\frac{40}{40}$
- $\frac{80}{30}$
- $\frac{60}{40}$

Which ratio could be graphed on the same line as shown in the graph.

**6**

- $\frac{6000}{7}$
- $\frac{2000}{6}$
- $\frac{4000}{2}$
- $\frac{3000}{10}$
